- If you want to learn purposefully, want to know why and be able to decide with your educators on the focus of your subjects to ensure that what you learn is interesting and relevant.
- If you are independent and want to have input in what you learn and how you learn.
- If you have a specific passion and you want to pursue this at school by having input in your learning process – exploring those areas in life that make you unique and extraordinary.
- If you are creative and would like to explore different perspectives in your learning process.
- If you want to complete your school career in a small group, where each learner's individuality is acknowledged and celebrated, where you cannot disappear in a group, where you are noted and held accountable.
- If sustainability is part of your family's DNA, you already recycle at home, you are already conscious of your lifestyle and consciously change it to reduce your impact on the earth.
- If you prefer to learn in a small cohort where you get to know everyone and they get to know you very well.

Green School is not the right school for you if:

- Competing in school team sports is really important to you.
- You want to take specialist subjects, such as specific music instruments or agriculture.
- You enjoy learning in a large cohort, in a school with long-standing traditions where the pioneer work has been done long ago.

- As jy doelgerig wil leer, wil weet hoekom, saam met onderwysers kan besluit wat jou fokus in elke vak is, en seker maak dit wat jy leer, relevant is.
- As jy selfstandig is en inset wil hê in wat jy leer en hoe jy dit leer.
- As jy 'n spesifieke passie het en dit graag wil kan uitleef by die skool deur jou leer proses te bestuur en die meeste te maak van wat jou uniek en uitsonderlik maak.
- As jy kreatief is, en verskillende perspektiewe wil ondersoek in jou leerproses.
- As jy graag in 'n klein groep jou skoolloopbaan wil deursien, waar elke kind se individualiteit geniet en waardeer word, waar jy nie kan wegraak in 'n groep nie, waar ons jou raaksien en verantwoordelik hou.
- As volhoubaarheid deel van jou gesin se DNA is, en julle reeds herwin, reeds ondersoekend kyk na julle eie leefstyl en doelbewus veranderinge maak om julle impak op die aarde te verlig.
- As jy van klein groepe hou, waar jy almal leer ken, en almal jou baie goed leer ken.

Green School is nie die regte skool vir jou nie, as:

- Kompetierende skolesport vir jou baie belangrik is.
- Jy spesialisvakke soos spesifieke musiekinstrumente of landbou wil neem.
- Jy daarvan hou om in 'n groot groep te leer, in 'n skool waar daar gevestigde tradisies is en waar die baanbreker werk klaar gedoen is.
